INDISPENSABLE

No.1 heat induction tool

Lightweight induction tool to assist the removal of extremely rusted, seized or stripped nuts, bolts, bearings, gears, pins and more.

WORKS IN SECONDS

Less prep time, less labour

Avoid unnecessary shearing off of rusted studs or bolts.
Localised, controllable heating avoids risk of local damage.

TECHNICAL DATA SHEET
FROM OUR WEBSITE:
WWW.BOLT-BUSTER.CO.UK

TORCHLESS

Allows for concentrated heating

High frequency magnetic fields instantly heat ferrous metal objects, eliminating the need for open flame torches.
